Fritz Knarr of Easton Avenue Heights is in jail at Clayton, charged with attempted arson in a warrant issued by Jus-tice Frank Stobie of Wellston. Knarr was arrested by Deputy Constable Bode Thurs-day night at 11 o'clock after he had set off a charge of dynamite under his house,

it is alleged.

Knarr cut a hole in the wall, after he had placed the dynamite under the house, and poured gasoline into it. Then he dropped a lighted match into the opening. dropped a lighted match into the opening, its is said.

The explosion that followed wrecked the room and threw Knarr to the floor, but did not injure him. The members of his family, who had retired, jumped out of their beds and extinguished the flames before much damage had resulted. By this time several neighbors, aroused by the noise, reached the place. Frank Robinson telephoned for Bode, while the others watched Knarr.

It is probable that an inquiry will be held to ascertain Knarr's mental condition, as he has acted queerly on several occasions recently.

ONE RESULT OF HER ACTIVITY IN THE SPANISH WAR.

Marine Engineers—A Direct Legacy of the Days of Action.

The part played by the United States hattlesnip Iowa at Santiago and elsewhere in West Indian waters during the Spanish War is well known. People, however, hardly dream of some of the far-reaching consequences of the discipline which had then to be maintained.

One of the brave men aboard the Iowa hore about with him for several years a very unpleasant reminder of his service on that famous ship. This man is Mr. George E. Parquette, now residing at 236 Sixth avenue, Troy, N. Y., who was a marine engineer on the lowa when, under command of Captain Bob Evans, she was performing brilliant exploits in battle and in filibuster-chasing in Cuban and Porto Rican waters. Of these stirring times Mr. Parquette says:

"Whenever we were expecting an engagement our meals were very uncertain, and, when we did eat, we had to be minute men. The constant anxiety and haste affected my stomach and put it in a very bad condition, which lasted for four years, notwithstanding the fact that I was under a doctor's care. I could scarcely keep anything on my stomach and I suffered greatly from steady pains in the lower part of it. My appetite, too, was very poor and for four months I was in bed.

"Other troubles developed. I had severe hendaches, and at times I felt as it something was clutching at my heart. My blood got out of order and I had fever and coughing spells. My stomach finally became so bad that I do not think it could possibly have been worse, when, in the fall of 1903, I first heard of Dr. Williams' Pink Pills agree with the most delicate stomach and create an appetite. They put the stomach in a condition to digest the food and insure its proper assimilation. They expel poisons from the blood and they rapidly build up weakened constitutions and give new vitallity to overwrought nerves. They are soid by all druggists throughout the world.
